# The OC 250/500/1000 Inkjet Coder

## Short description :

The OC 250/500/1000 encoder is a 1/2/4 head encoder for a wide range of applications, whether in industry, logistics or wherever data must be printed or imprinted.

The OC coder impresses above all in the simple operation and the variety of possibilities it provides.

Depending on the model, the OC coder can print print heights of 25-100 mm. There are many predefined input options such as text, time, date, QR code, bar code,

Images but also variable fields that can be filled from an Excel spreadsheet and a date field with pre-dating round out the options for input directly on the touch screen.

The fast-drying ink lasts on almost all surfaces and is smudge-proof after a very short time.

The Dual Nozzle Design (DSND) is particularly noteworthy. If the print quality deteriorates, you can switch to the second row of nozzles in the settings and the quality is back in order.

These things distinguish the OC coder to a very good coder with an even better price-performance ratio.

## Technical data：

| | |
|---|---|
| Model | OC 250 Aluminum |
| Housing | 1 head / 2 heads / 4heads 15x110x45 mm |
| Number of heads | Cortex A9 Quart Core with 1.4 GHz 7 |
| Dimension | / 7 / 9 inch touch screen |
| CPU | USB, photocell, encoder, Bluetooth 4.0, Wifi |
| Display | |
| Interfaces | 200/300/600 DPI switchable |
| | Bubble Jet |
| Resolution | 2 - 25 mm |
| Pressure nozzles | Mirror Horizontal and Vertical |
| Print height | 1- 10 mm - best result at 2 - 5 mm distance |
| Print direction | 2000 characters per job - unlimited length |
| Distance to product | Up to 70 m/min |
| Print Length | Text, date, time, counter, bar code ,QR code, images |
| Speed | plastic, stone, glass, metal, wood, cardboard etc. |
| Print types | 22Languages like English, German, French etc. Fast |
| Print media | drying |
| Languages | 72ml ~ depending on print quantity approx. 50.000 |
| Ink Type | labels Black |
| Cartridge capacity | Temperature range 10 - 45 °C Humidity 10 - 70% |
| Color | |
| Environmental conditions | |
